IMPORTANT INSTRUCTIONS

In some specific cases, the Village may allow an individual to not follow certain regulations under the Worden Subdivision Code. This permission to develop in violation of the Code is called a "Variation". Variations are usually limited to those situations when a Subdivider/Developer can show that the strict application of certain regulations would cause great practical difficulties or a particular hardship, rather than simply an inconvenience. The standards that the Village follows in order to issue such a variation, are listed in the Subdivision Code under Section 345-4-39. The applicant must be prepared to prove that the request for a variation meets the requirements as outlined in that section.
